3WIRE

As the largest domestic Popeyes® franchisee in the United States, we have 16 maintenance technicians and have been in business over 35 years. I thought I was receiving the best possible prices on parts. When 3Wire's Craig Drummond presented the SMS Parts Solution program, I was intrigued to say the least. Seeing the investment 3Wire made in supporting the Popeyes® Brand and franchisee community, I was impressed. They have the largest selection of parts for Popeyes® approved equipment, same day shipping on in-stock parts, dedicated customer service group, field personnel and online ordering with manuals. ***We are saving an average of 10% - 30% on parts under this program.*** *I am a strong supporter of this program and encourage my fellow colleagues to purchase their parts from 3Wire under the SMS Parts Solution program.*

Steven M. Wemple; President-COO, Sailormen, Inc., Miami, FL

I have been a customer of 3Wire prior to the national SMS Parts Solution Program for Popeyes® franchisees. ***As a result of the SMS partnership with 3Wire, I have been very pleased with the increased savings, support and tools that are available.*** *My discounts on parts have increased which has reduced my cost, increased my profits and eliminated down time. I would highly recommend to any Popeyes® owner to enroll in this free program and start enjoying the benefits today!*

Joe M. Haberkorn; President, Haberkorn Company, Chicago, IL

I have been using the SMS Parts Solution Program by 3Wire for some time. As a franchisee, I am always looking for ways to save money and to improve my bottom line. I can truly tell you this program that SMS has developed with ***3Wire has saved me an average of 25%.*** *Being able to buy all of my foodservice and beverage parts from one company not only saves me money but valuable time. Their flat rate shipping program is great. I have called 3Wire to help in part identification and their dedicated Popeyes® staff is always quick to help. If other Popeyes® franchisees haven't used this program yet, I would recommend that they set up an account and start adding to their bottom line!*

Conrad Roberts; Bay Pop, LLL, Bronx, NY

The 3Wire/SMS parts program has already saved us hundreds of dollars. *I like to order online, but there is a live person on the phone whenever you have questions or issues. You can save a lot of money even if you hire someone to complete the repairs after you purchase the parts.*
